GENERAL NEWS.

Vanderbilt Makes a few Remarks on Railroad Matters at Chicago.

BUNKER HILL ANNIVERSARY CELEBRATION AT BOSTON.

A Remarkable Labor Demonstration at Pittsburg—A New Bridge Talked of at St. Louis for the Pennsylvania Co.

(SPECIAL DISPATCHES TO THE OREGONIAN.)

CHICAGO, June 19.—W. H. Vanderbilt and party arrived in Chicago this afternoon. Vanderbilt says the object of his visit is examination of the lines of the Northwestern, with inquiry into traffic sources of the west. The party intends to go to Winnipeg. Vanderbilt admitted having large individual interests in the Rock Island, Burlington and Santa Fe, and Union Pacific roads, but stated he desired no voice in the management. He improved the opportunity to deny that he ever unloaded Lake Shore stock on his friends, and remarked that he had this year increased his holding in that road by 40,000 shares. He said he had given no assurance that Lake Shore would pay two per cent quarterly, nor would he pretend that the New York Central was at the present time earning eight per cent per annum. He declared he had held some interest in the Michigan Central for several years past.

Bunker Hill Celebration.

BOSTON, June 17.—Bunker Hill day was observed in much the usual holiday manner, by suspension of business, decoration of buildings, aquatic, athletic and other sports, exercises at the monument, military parades and fire works in the evening. The most prominent feature of the day's proceedings was the Irish demonstration at the Mechanics' Fair building, under the auspices of the combined Irish-American societies of Massachusetts. Although many of the more prominent speakers advertised, including Michael Davitt, did not put in an appearance, the attendance at the mass meeting exceeded 30,000, and proceedings were characterized by much enthusiasm. The gathering was essentially a land league affair.

The Pittsburg Demonstration.

PITTSBURG, June 17.—The labor demonstration of to-day, though not so successful in point of numbers as it would have been if the weather had been propitious, was still large enough to satisfy those who admire a procession more on account of its numerical display than for its ornamental features. The number of men in line was variously estimated at 20,000 to 30,000. The greenback candidate for governor, Thos. Armstrong, had a prominent place in the procession. The streets were crowded with spectators, although there was a hard rain.

Summary Execution.

NEW YORK, June 19.—A special from Matamoras, Mexico, says a dispatch from Chihuahua to-day states that 27 Apache prisoners captured in recent fights with Jesus and Maria bands were taken out in a field yesterday and shot. They behaved with wonderful bravery, each one meeting his fate with remarkable coolness, and looking defiantly at their executioners.

Shot Dead.

NEW ORLEANS, June 19.—The *Times-Democrat's* special from Booneville, Miss., says: Morgan Hamilton (colored), accused of murdering Miss Selina Benton, two weeks ago, was shot down to-day by a party of eight men. They approached him in a field where he was working, and told him to run, and as he started off shot him dead.

An Insane Freak.

CHICAGO, June 19.—A Geneseo, Ills., special says: Eight miles south of this city on Saturday, after preparing a dinner for her husband and hired man, and while they were eating, Mrs. Linquist took her son, aged five, to a corn crib near the house, cut his throat and then killed herself. No cause is known, but the woman was believed to be insane.

Sculling Race.

WHEELING, W. Va., June 18.—The three mile sculling race between William Briceland and Edward Clator for $1000 a side came off over the lower course of this city this evening, and was won by Briceland by two lengths; time 21:07.

A New Bridge at St. Louis.

ST. LOUIS, June 19.—It is said the recent visit of President Roberts, of the Pennsylvania company, here, had in view the building of another bridge over the Mississippi, for the use of the Pennsylvania company, Baltimore and Ohio, Chicago and Alton and Indianapolis and St. Louis.

Died.

CHICAGO, June 19.—*Times'* San Antonio: Col. Lawrence W. O. Barnam, formerly chief quartermaster of the trans-Mississippi department, died at Inde, Mexico, on Saturday, where he had charge of affairs of the Washington Mining Co.

Ravages of the Army Worm.

CINCINNATI, June 17.—Advices from intelligent and reliable sources in Warren county make the loss to the barley crop from the army worm and water as fifty per cent. The worm is attacking corn to some extent, but has not yet harmed wheat.

The New Steamer.

CHESTER, Pa., June 19.—The new iron steamship San Jose has left Roach's ship yard for New York to take her place on the line of the Pacific Mail steamship Co.

A New Strike.

SCRANTON, Pa., June 19.—Miners at Tiler & Lavelle's mine, Winton, Pa., have struck for higher wages, and also men sinking a shaft for C. P. Mathews & Co.'s coal company.

BY ATLANTIC CABLE.

The Conference Question.

PARIS, June 17.—Journals here say the powers have accorded the porte further delay for consideration as to the U. S. acceptance of the conference. Spain asks to be permitted to participate in the conference and France raises no objection. The khedive has resolved not to retire to Cairo.

Notes on Egyptian Affairs.

CAIRO, June 19.—Arabi Pasha, presenting prizes to pupils of the Italian college, said public security would be guaranteed.

Batteries have arrived at Alexandria on night trains the last few days.

The *Times* says eighteen gunboats, if necessary, will be immediately overhauled for despatch to the Suez canal.

A Conference to be Held.

BERLIN, June 19.—England and France have promised to hold a conference on Egyptian affairs to meet June 22d at Constantinople. Meanwhile the khedive, Dervisch Pasha and Arabi Pasha have promised to maintain order.

Valuable Paintings.

LONDON, June 17.—At a sale to-day at Hamilton palace, residence of the duke of Hamilton, the historical portrait of Charles I, by Vandyke brought 770 guineas, and Vandyke's portrait of Henrietta, of Lorraine, 2200 guineas.

The Recent Find.

LONDON, June 19.—Thomas Walsh, an Irish tenant of the house in Clerkenwell where ammunition and firearms were seized, has been arrested. From the fact that he has assisted emigrants to America, it is inferred he is in connection with parties in the United States. Since Walsh's arrest another 5000 rounds of ammunition have been seized at his residence in Hatton Garden.

An Important Discovery.

A correspondent at Berlin says Herr Melfry, one of the principal navigators in the German navy, has been arrested at Kiel on a charge of having accepted a bribe of 150,000 roubles to deliver to the Russian government copies of plans of all works of defense on the German coast.

MEXICO.

An Indian Disaster.

TUCSON, June 19.—Advices from Chihuahua City state that Mexican troops had another fight with Indians at Encinillas, in which fifteen Indians were killed and twenty prisoners taken. Five Mexicans were killed. The killing of Chief Sancho and a son of Juh has been confirmed.

Mexican Outrage.

TUCSON, June 19.—Capt. W. J. Ross, with his command of 60 rangers which left here two months ago, has returned. The rangers trailed the remnant of the renegade Apaches 200 miles from the Arizona line down into Chihuahua, Mexico. They counted near 200 dead Indians, many of whom were found near the mountain trail. They had evidently been wounded in the fight with Mexican troops under Gen. Garcia, and fled for safety. The body of Chief Loco was identified by one of the party. On the 1st inst., they fell in with Mexican troops commanded by Gen. Reyes, and were arrested, disarmed and after four days ordered to get out of Mexican territory. Gen. Reyes informed Ross that inasmuch as he had authority as a deputy sheriff from Arizona, and lives of himself and men would be spared, but he must go back unarmed. Ross demanded a voucher for the arms of his rangers, which was at first refused, but afterwards granted. Gen. Reyes stated he had sent Col. Forsythe a formal warning that any body of armed men found on Mexican soil would be shot, but he would make an exception in this case. The rangers were compelled to return through an Indian country 250 miles, without a single weapon for self-defense. General Reyes admitted he was well aware the rangers meant no harm or wrong to Mexicans, but were after hostile Indians, but declared it was a violation of international law which he would not tolerate.

THE TURF.

The Chicago Meeting.

CHICAGO, June 18.—The driving park running meeting, which begins next Saturday, promises well. Indications are of a large attendance from all parts of the country. About 200 horses are now on the grounds, including California stables and one from Winnipeg.

Match between St. Julien and Trinkett.

The driving park has arranged a match race between St. Julien and Trinket, to be trotted Thursday, July 20th, during the regular meeting, for a special purse of $2500, both to go to sulky, and St. Julien to draw not to exceed 25 pounds more than Trinket. The exact handicap is not yet fixed, but left for Secretary Hall to decide after seeing the animals tried. Both are said to be in excellent condition.

Coney Island Races.

NEW YORK, June 17.—First race, ¾ mile—Duke of Kent 1st, Bedouin 2d, Godiva 3d, time 1:16.

Mile heats—Dank 1st, Glenmore 2d, Blenheim 3d, time 1:45.

Coney Island cup, 2¼ miles—won by Hindoo, Eole 2d, Parole 3d; time 3:58.

Fourth race, 1⅛ miles—Amazon 1st, Macbeth 2d, Bruton 3d; time 1:53¾.

Steeple chase—won by Frank Short, Disturbance 2d, Kitty Clark 3d; time 5:32¾.

CANADA.

Drowned in a Squall.

KINGSTON, Ontario, June 17.—Four men employed in a cotton mill were out sailing in the bay to-night, but upset in a squall off Point Frederick, and two, names unknown, were drowned. The others were rescued by military college cadets.

CONGRESSIONAL PROCEEDINGS.

House.

WASHINGTON, June 17.

The house went into committee on the river and harbor appropriation bill.

Page offered an amendment directing the secretary of war to carry on the works contemplated in the bill by contract when not detrimental to the interests of the government. Adopted.

Committee rose and reported the bill to the house and it passed, yeas 119; nays 47.

Following is the negative vote: Aldrich, Briggs, Buchanan, Caldwell, Campbell, Cobb, Converse, Cox of North Carolina, Deering, Deuster, Dingley, Dwight, Godshalk, Hall, Hardenberg, Haskell, Hewitt of New York, Holman, Hutchins, Jadwin, Joyce, Kasson, Ketcham, McKenzie, Mills, Murray, Morse, Moulton, Mutchler, Neal, Peelle, Prescott, Regan, Scales, Skinner, Smith of Pennsylvania, Steel, Turner, Turner of Kentucky, Tyler, Updegraff of Iowa, Wadsworth, Walker, Warner, Whitthorne and Wilson.

Robeson, from committee on appropriations, reported the naval appropriation bill. Ordered printed and recommitted. Adjourned.

PACIFIC COAST NEWS.

CALIFORNIA.

Liable for Damages.

SAN FRANCISCO, June 18.—Proceedings will probably be instituted against the captain of the British steamer Aujer Head for violating the United States statutes in regard to the manner in which bunks shall be ranged on board a vessel. It is claimed that he has failed to comply with the law in this respect, and according to law the vessel is liable to pay a fine of $5 for every passenger on board when these requirements are disregarded. The steamer brought 800 passengers, which would swell the total fine to a round sum.

San Francisco Notes.

SAN FRANCISCO, June 18.—Louis C. Plaisance, a young and prominent attorney of the city, while out yachting near Vallejo yesterday, was struck on the head with the main boom and fatally injured.

The Eureka Tunnel Co. is assessed five cents a share, and Contention Co. declares a dividend of 25 cents a share.

Schooner Ashore.

SAN FRANCISCO, June 19.—A dispatch to the merchants' exchange says the schooner Arab, a small coaster, is ashore near Fort Ross, and is a total loss. The crew were saved.

Grand Lodge in Session.

MARYSVILLE, June 19.—The grand lodge of F. & A. M. (colored) convened here to-day. About thirty delegates were present. The usual routine business was transacted. The session will probably close on Thursday next.

California Republican Convention.

SAN JOSE, June 19.—Delegates are gathering. The talk is that Hearst's slate is broken and Johnson stands to win. It seems settled that Boggs will be chairman.

NEVADA.

Comstock Notes.

VIRGINIA CITY, June 18.—During the week 625 tons of ore were extracted from "Union," and 683 tons sent to the mills. The amount of bullion in the office is $12,547.

They have commenced extracting ore from the croppings of California.

At Alta last night a pump rod broke, throwing a heavy piece of iron into the station, and broke the leg of Thomas Fallon, pumpman. It will take 48 hours to repair the rod.

The water at Jacket has raised but one foot during the week.

At Winters shaft they have finished repairing the drift on the 600 foot level, and reached the first set of timbers of the old stopes. On the 600 foot level 200 feet south of this shaft, they have started a cross-cut east. At other points work is merely to secure ventilation.

Good progress is making at enlarging Mexican winze on the 2700 level.

WASHINGTON TERRITORY.

Port Townsend Notes.

PORT TOWNSEND, June 19.—Clark Davis, son of A. M. Davis, dairyman of Dungeness, W. T., was drowned on Hood's canal, near Union City, recently, by falling off of a boom of logs on which he was at work. Davis was about 20 years of age, and a native of Canada.

The steamship Geo. W. Elder sailed this evening for San Francisco via Victoria, with the following passengers: Mrs. Nicholls, Mrs. A. Dagers, Mrs. R. G. Ayers, Mrs. Stedway and two children, Mrs. S. N. Taylor, D. H. Allen, J. M. Kotter, J. Gusser, Mrs. A. Brooks and child, Mrs. A. Baxter and three children, Capt. E. L. Marshall, Capt. F. Hunt, H. G. Nesson, Frank Chinke, Mrs. E. A. Ralsback, Alma Ralsback, W. J. Adams, Dennis O'Neil, C. B. Golden, S. F. Holmes, and 15 in the steerage.

WRECK AT SHOALWATER BAY.

(DELAYED SPECIAL TO THE OREGONIAN.)

ASTORIA, June 17.—The *Astorian* to-day says: Alfred Carruthers, who came over from North Bend, Shoalwater bay, last evening says that on the 14th inst. a wrecked schooner drifted in on to the beach, her deck breaking away as she struck the breakers. She was the St. George, of San Francisco, 92 tons, loaded with lumber, and had evidently drifted for a long time. When Carruthers left she was fast breaking up.

Protection and Wages.

Boston Herald.

The strike of the iron workers is likely to work to the advantage of the manufacturers. Shutting down half the works in the country will stiffen the market, which has been a good deal demoralized. But what do the workmen think of it when their demand for a small increase is refused, though they know that enormous profits have been made in the iron business in the last three years? The fact is that the absurdly high tariff has stimulated production beyond the wants of the country, and there is no market outside of the country for the surplus.

WASHINGTON NEWS.

Justice Bradley Refuses to Grant Guiteau's Appeal.

AND HIS LAST HOPE OF REPRIEVE IS GONE.

E. C. Ingersoll, Counsel for Christiancy, Adjudged Insane—Minority Report on the Northern Pacific Land Grant.

(SPECIAL DISPATCHES TO THE OREGONIAN.)

WASHINGTON, June 19.—Messrs. Townsend of Illinois, Knott of Kentucky, Payson of Illinois and Culberson of Texas, a minority of the house judiciary committee have completed a supplemental report and resolution recommending that lands granted to the Northern Pacific be declared forfeited. The resolution and their view in support of it will be submitted to the house as soon as practicable. The report, after giving an extensive history of the doings of the company, reaching the conclusion that it has been lavish in expenditures, the committee concludes that applying the auditor's estimates, however, to the entire grant, the result will be the value of 57,920,000 acres at $2 50, or, $144,800,000. The estimated cost of the road finished is $24,354,361, and the unfinished portion $50,110,000; total cost $74,458,417, leaving a balance of $70,320,584 donated to this corporation in addition to the whole cost of the entire system of subsidized lands for which the United States is never to receive a cent in return. Further comment would be superfluous, and the undersigned would simply add that in view of these facts it is due to the house and country, not only that the substance of the land grant should be fully and fairly discussed, but that congress should take such prompt and decisive action in relation thereto as will be just alike to the company and people. They therefore ask that the accompanying joint resolution be placed on the calendar of the house and recommend its adoption; that all lands heretofore granted to the Northern Pacific railroad company and remaining unearned by construction on the 1st of January, 1882, be and they are hereby declared forfeited.

Star Route Matters.

WASHINGTON, June 17.—The grand jury came into criminal court this forenoon and made three new presentments in the star route cases. In two of the presentments Thomas J. Brady and Geo. V. Meserole were connected, and in the third James B. Price, alias J. B. Price, and Thomas J. Brady were mentioned. Presentments were also returned against Marshal J. Condit and John H. Wallace, for perjury, the latter charges connected with straw bonds. Within half an hour from the time of presentments, indictments based upon them were returned. Indictments were against Jas. B. Price and Thos. J. Brady for conspiracy to defraud the United States in connection with route 31,148, from San Antonio, Texas, to Corpus Christi, and route 30,183, from Monroe to Shreveport, Louisiana.

The two indictments against Geo. V. Meserole and Thos. J. Brady, made the same charge of conspiracy based upon frauds committed on routes No. 38,128, from Monument to River Bend, and No. 38,167 from Gardner to Rosita, Col. Upon return of indictments the party was discharged. The date of conspiracy in the Meserole-Brady indictment is fixed at June 23d, 1879, and in the Price-Brady indictments is fixed at July 1st, 1879. The nature of the conspiracy is similar to that in cases now being tried, namely, illegal expenditures and increase of service upon routes.

King Kalakaua Fixing up.

WASHINGTON, June 19.—A gentleman writing from Boston says that furniture establishments in that city are making new furniture for the palace of Kalakaua, king of the Hawaiian Islands. The correspondent says: King Kalakaua is about to furnish his palace, having some $4,000,000 loose in his pocket, and his representative has given contracts to a Boston house. Brabrook is manufacturing furniture for the entire palace, that destined for official uses consisting of twelve imposing high backed arm chairs and two thrones, and is gorgeous. It is upholstered in satin brocade of a rich vivid red, and every inch of woodwork is covered with pure gold leaf, laid on with a lavish hand. The canopy which is to surmount the thrones for the king and queen is massive and very elegant. In the center is a finely carved crown, covered with gold leaf and picked out with red.

The Naval Bill.

WASHINGTON, June 18.—Among the items agreed upon in the naval appropriation bill are the following: Bureau of provisions and clothing $1,050,000, bureau of construction and repairs $1,770,000, bureau of steam engineering $2,200,000, of which $1,000,000 is to be applied in building and fitting turrets and pilot house of the iron clad steamer Miantonomah, in launching to the best advantage the monitors Monadnock, Puritan, Amphitrite and Terror, and in completing engines and machinery of such two of the last named vessels as the secretary of the navy may think most expedient and best for the interests of the service. The legislation which Robeson embodied in his draft of the bill, and which has been referred to heretofore, was adopted in full committee.

The Chinese Treaty.

NEW YORK, June 19.—The *Commercial's* Washington correspondent says: An impression prevails here that the Chinese government does not intend to accept the action of our government in reference to the exclusion of her subjects for the next 10 years, without an emphatic protest. Already it is known that the government regards the provisions of the bill recently passed, as a direct violation of the treaty existing between the two nations. While a protest will undoubtedly be made it is not believed in official circles that China will go to the extent of abrogating the treaty, but will, after expressing forcibly the belief that the treaty has been violated, quietly accept the situation.

A Crime to be made Public.

WASHINGTON, June 18.—The *Sunday Gazette* says it is known that papers preliminary to the criminal prosecution of a well known manufacturing firm and prominent treasury official are in course of preparation. The complaint will contain several specific allegations of fraud by which the treasury was plundered to a large extent. It is thought the case will be initiated early this week, probably Tuesday. The evidence is asserted to be conclusive against the persons who will appear as defendants. This is very likely the beginning of the end of one treasury ring and one of the strongest. We might go into particulars of this contemplated prosecution but the ends of justice are served by our doing otherwise.

Illness of Mrs. Pacheco.

Mrs. Pacheco has been lying dangerously ill for the past week at Congressional hotel. Yesterday her condition gave indications of improvement and her friends hope that she will soon rally sufficiently to be able to travel to some cooler place. Mrs. and Miss Pacheco will spend the summer at Schroon lake in the Adirondacks.

Guiteau must Hang.

WASHINGTON, June 19.—Justice Bradley of the U. S. supreme court, to whom Guiteau's counsel applied for a writ of habeas corpus to-day, filed a denial of the application with the clerk of court. Justice Bradley holds the court of the District of Columbia has full jurisdiction in the case and no reasons exist for granting the writ.

Postal Changes.

Established—Encampment, Umatilla county, Or., Mary M. Strickland postmaster; Fairview, Spokane county, W. T., John L. McGowen postmaster.

Postmaster Appointed—Mrs. Mary Coughill, East Portland, Multnomah county, Or.

Washington Notes.

A republican caucus is announced to take place Tuesday evening.

E. C. Ingersoll, counsel for the plaintiff in the Christiancy divorce suit, has been pronounced insane and taken to an asylum.

The naval appropriation bill, which will be reported for printing and recommittal, appropriates $15,350,000, or $350,000 more than last year.

The U. S. district of Massachusetts will be instructed to bring suit on the bonds of J. C. Bridgeman, ex-U. S. Indian agent at Green Bay, Wis., in the sum of $250,000, for misappropriating funds and other grave irregularities.

TELEGRAPHIC SPARKS.

Harry Huddleson, colored, was lynched at Winchester, Tenn., on the 19th inst., for an outrage on a Mrs. Vaughn.

A mortgage given by the Mutual Union Telegraph lines for $5,000,000 was recorded in the clerk's office at Poughkeepsie, N. Y., on the 17th inst.

Three sons of Duncan Taylor, at Brussels, Ontario, aged 8, 6 and 4 years, were suffocated in an oat bin on the 17th inst., by the lid closing on them while they were hiding within.

Hard to Understand.

New York World.

It is hard to understand why the workmen employed by our protectionist friends in Pennsylvania should be talking about strikes and such things. Have not Mr. John [illegible] and his brother employers [illegible] based their defense of the protective system on the ground that they desire protection only that it may enable them to pay liberal wages to the American artisan, instead of the [illegible] pauper labor of Europe? Yet the American artisan now arises with [illegible] pockets full of money and declares that he is not paid what he considers liberal wages, and the [illegible] and philanthropic Mr. [illegible] is the man of all others who stands in the way of liberal wages. [illegible] our Pennsylvania friends have been [illegible] the prosperity [illegible] of the [illegible] trouble [illegible] profits which [illegible] with [illegible].

How the Stalwarts Can Save the Party.

Senator Mitchell's interview to N. Y. Herald.

The independent movement in Pennsylvania has already assumed proportions which the most sanguine of them did not expect. It is the people's cause, and they are determined to take care of it. If the stalwart republicans of Pennsylvania want to carry the election for the party this year they can come over to the independents and thereby win the election. They cannot do it otherwise. I think the stalwarts will surrender in good time. But, if they do not, they will have to submit to an inglorious defeat well deserved.

"QUEEN OF THE PACIFIC."

DESCRIPTION OF THE BEAUTIFUL NEW STEAMSHIP.

A Floating Palace, Intended for Portland's Benefit, and Costing Half a Million Dollars.

The Philadelphia correspondent of the New York *Nautical Gazette* gives the following account of a trial trip, and a lengthy description of the new steamer, which is to ply between San Francisco and Portland:

"On Monday morning a large party of invited guests embarked on the new steamer Queen of the Pacific, which has just been built by Messrs. Cramp & Sons for the Pacific Coast Steamship Company, for the purpose of making a trial trip in her down the Delaware. This new vessel is by far the finest specimen of naval architecture ever turned out from the establishment of the Cramps, notwithstanding their handiwork is marked indelibly upon some of the leading steamers in the Atlantic and Pacific coast trade. The external appearance of the Queen of the Pacific is very pleasing to the eye of the competent critic as well as to those who can only judge of a vessel by her proportions and beauty of outline. She is pronounced by all to be a beautiful ship in model, symmetrical proportions, in neatness of design and finish, and in all the points that go to make up a superior vessel, while internally art has produced some marvelous results in her adornment, so that to-day she stands without a peer in the richness and elaborateness of her exterior decorations.

To give our readers some faint idea of this vessel we will lead them about her, beginning on the main or saloon deck aft. There is a small open deck abaft the deck house where is located a Providence capstan. Entering this house there is a passageway leading to the deck below, where the saloon waiters are quartered; on the starboard side are the gentlemen's closets and on the other side is a state-room with two berths. In the after part of the saloon proper, which may be called the

MAIN SALOON STATE-ROOM HALL,

Which is 30 feet long and 14 feet wide, are 19 staterooms six feet four inches wide, ten feet deep and seven feet six inches high, making the largest staterooms we know of on any steamer afloat. Each stateroom has an air port 15 inches in diameter, which with the half dozen slat ventilators in each, insures the best of light and ventilation. Each room communicates with the pantry by electric bells, and each is lit by an Edison incandescent electric light, suspended from the ceiling, and also a Downer mineral sperm oil lamp secured to the bulkhead. The walls and ceilings of the rooms are finished in flat white, the trimmings being in mahogany and oak, with Hungarian ash polished panels in the mirror cases. The wash-stands, with marble tops, are enclosed in wood, standing on a fluted column highly decorated, and when not in use are covered by a polished mahogany top, forming a commodious side table. The mirror is encased in beautiful oak frame with mahogany inlaying, and the clothes, towel, brush, comb and tumbler racks are in carved mahogany. Each room has a sofa covered with dark maroon plush, and the rooms and ship throughout is carpeted with a dark ground heavy carpet of like pattern. Each berth has a "Saratoga" spring bottom, a best quality hair mattress and hair pillows. Each room has three berths in it, the two upper ones 28 inches wide and the lower one 38 inches.

THE GRAND SALOON PROPER

Is 37 feet long by 37 feet wide, and 7 feet 9 inches in height, and is lighted from the sides by twelve 15-inch side ports, and contains seven tables capable of seating 250 persons at one time, giving to each person a seating width of 25 inches, which is greater than usually allowed.

The staircase from the main saloon to the social hall is exquisitely carved, the newel posts being particularly noticeable and surmounted by rich electric lamps. The social hall is finished, both sides and ceiling, in a very deep rich-tinted mahogany in panels, relieved by mouldings and carved work. The forward end is adorned by an immense plate glass mirror, and the after end by a piano in a magnificent case, flanked by two library cases containing a very well selected library of about 250 volumes. Rich lounges encircle the hall on both sides. There are eight stained glass windows and two stained glass doors in the hall. On either side at the end of the hall is a

BRIDAL ROOM

Twelve by six feet, gotten up in the most exquisite taste and style; finished in mahogany and oak, with delicate satin wood mouldings. A full-sized bedstead, a large wardrobe, tables, etc., etc., and a large sofa fill the appointments of these right royal quarters. The sides and ceiling are covered with bronze paper, Japanese pattern. One of the features of the Queen of the Pacific is the dome, which covers the main staircase. This dome is a true circle 14 feet in diameter and 6 feet high from the base, and from the main saloon deck to the apex of the dome inside is 22 feet. The dome is made in twenty-two segments and the filling is of figured stained glass, and from the center hangs an exquisitely jeweled electric chandelier. This dome is enclosed in a safety cover on the promenade deck, and between it and the dome proper there are placed six electric lights which at night give a most charming effect to the dome and social hall. Taken as a whole, the saloons, state rooms, hall, social hall and bridal rooms have no equal in this country or in the world for that matter, for exquisite and artistic decoration in its peculiar style. As to

PROVISIONS AGAINST CASUALTIES,

She has eight metallic life-boats, ten Calkin's life rafts, a surplus of Kahnweiler's cork jackets, an abundance of fire pumps and hose, and, in short, has an excess of life-saving appliances over the number provided for by the steamboat inspection certificate.

This vessel is lighted throughout by the electric light system. There are eleven double electric light chandeliers, two single light chandeliers, ten electric light brackets, five single oil light fixtures in the main saloon. The electric fixtures are of antique design, with rope stem, pendant dolphins, and a richly chased jeweled circular band, with pendants for the electric light, and fitted with very costly porcelain shades, exquisitely decorated. The ladies' boudoir, the captain's, chief engineer's and purser's rooms have dolphin bracket electric lights, with oil lamps as well. The social hall has a six light electric chandelier the same as the saloon, with side light brackets on piano case, and bracket lights in the bridal rooms. All the chandeliers and brackets are in rich and costly bronzes. No pains or expense have been spared to make her a first-class ship in every respect. Her cost will not be far from half a million dollars when ready for sea. The Queen of the Pacific has been built to obtain the

HIGHEST CLASS IN BUREAU VERITAS

For transatlantic service, and holds a certificate to that effect. She is 330 feet long, 38 7 feet beam, 22.8 feet hold, and 30 feet to awning deck. She is 2727.80 tons, custom house measurement. She has 1200 tons dead weight cargo capacity, 460 tons bunker capacity on 16 feet draft. She is half brig rigged with iron masts in one piece, and is well canvased.

She has an inverted direct-acting compound engine, with 45 and 90 inch cylinders and 48 inch stroke of piston.

She has valve pistons, the first ever applied in this country, similar to those on the Alaska, and is expected to develop 3000 horse power, and a maximum speed of engine of 60 turns per minute, which, with 100 pounds of steam, will give her a speed of

SIXTEEN KNOTS AN HOUR.

She has eight boilers, 11 feet in diameter and 12 feet long, with shells one inch thick and 370 square feet of grate surface, and will burn about sixty tons of coal per day, working up to full speed. The propeller wheel is 16 feet in diameter and 23 feet pitch, the blades and a spare set on board, having been made in England of manganese bronze, costing (with duty added, 40 per cent.) about $15,000. It is expected that the Queen of the Pacific will be a very fast ship.

Working on about half power on her trip she has made 60 turns, easily developing a speed of over 13 knots; which exceeded the expectations of her builders and special superintendent J. C. Henderson, to whose good taste and liberal views much of the credit is due for such a perfect ship. Mr. Martin Bulger who has been the superintending engineer from the time her keel was laid, will go out in charge of the machinery, assisted by Chief Engineer Paterson from the Cramps' shops. She will be under the command of Capt. J. E. Alexander, with C. Erickson as chief officer and Geo. W. Edwards as chief steward.

NEWFOUNDLAND.

Crushed by an Iceberg.

ST. JOHNS, June 19.—The American schooner Massasoit, under full sail, crushed into an immense iceberg and sank almost immediately to-day. Five of the crew went down with the vessel. A fog prevented the lookout from seeing the berg.

Mr. E. M. Gifford, of the Norway Iron Works, Boston, Mass., gave the following description to a Boston *Globe* representative as suggesting the special propriety of the points he makes in favor of the popular article mentioned below. Mr. Gifford observes: I am connected with the Norway Iron Works, one of the largest manufacturing concerns in the country. There is more St. Jacobs Oil used by the men in the works than I would like to state, lest you would put me down as a romancer. They use it right along for everything, and it does its work every time. I never thought anything advertised in the papers could take such a hold among men. You see, those who work in hot iron are constantly receiving hurts in one way or another, the most common being burns. Well, there is nothing equal to St. Jacobs Oil for burns. It takes all the fire out instantly, not after continued applications—but instantly. Therefore, you will at once perceive that it is an invaluable remedy to men who are constantly having their flesh singed by red-hot iron. Oh, yes, many have used it for rheumatic affections, and I have yet to hear the first man say it failed to give relief. They keep it in their families, too, and all swear by it. At the works the men club in and buy it and place it in the hands of the carpenter, who dispenses it when occasion requires. There is seldom a day when it is not called for. All use it. You must understand that a cut from hot iron is not like a slash with a knife or any other cold instrument. The iron not only cuts, but it destroys the tissues and leaves a ghastly, quivering wound exposed to the air, and a fainting, agonized wretch writhing with pain. Many a time I have seen a poor fellow thus situated soothed and relieved by the St. Jacobs Oil as if by magic. Only the other day a boy got frightfully cut with a piece of hot wire rod while at work. The wound was a very bad one. He suffered intensely, and was fainting with pain. As soon as possible a bottle of the St. Jacobs Oil was brought from the carpenter's chest, and the wonderful liquid was poured into the wound, which was in the calf of the leg. The relief was immediate, and the boy went to work a short time afterward, apparently unmindful of what otherwise would have undoubtedly laid him up.

NATURE'S MIGHT.

A Terrific Cyclone Devastates Many Iowa Villages.

FIFTY PERSONS KILLED AT GRINNELL, AND 100 WOUNDED.

Kansas City Damaged by the Same Storm to the Extent of $800,000—Several Towns Razed to the Ground.

(SPECIAL DISPATCHES TO THE OREGONIAN.)

DES MOINES, June 18.—A tornado swept through central Iowa late last night from the northwest to the southeast. Twenty miles north of Des Moines the town of Grinnell was struck by it and half the town is in ruins. About 40 people were killed and over 100 wounded according to the latest reports. Both of the large buildings of Iowa college were blown flat to the ground.

DES MOINES, Ia., June 19.—Special to *State Register:* Surgeons report 41 dead at Grinnell and say five or six more will not live through the night. Diegnan of Rock Island, a conductor, is dead. Surgeons report that the wounded exceed 150, and the number of houses destroyed or ruined between 140 and 150. Total loss of property is now estimated at $800,000. It is feared the number of dead at Grinnell will yet reach 75. The path of the tornado is now well defined as having been about 25 miles long and half a mile wide, extending five miles northwest of Grinnell and twenty miles southeast. It is now thought the loss of life outside of Grinnell will reach 25, and altogether near 100.

DES MOINES, June 19.—A special train with physicians has been sent out from here. A *Register* reporter sends the following: Thirty two people are dead and about 100 or more wounded. The list of fatal casualties is as follows: Deacon Ford and wife, Mr. Lewis and wife, Deacon Plerment and two children, Mrs. Eva Murton of Chicago, Henry Pittman's two children, Hattie and Harry, and Mr. Pittman; probably fatally injured, Miss Abbie A. Gard, photographic artist; Cornelia Chase, of Storm Lake, the only student killed; Susie Boyer, daughter of a dry goods merchant, and her mother, Mrs. Boyer; also his son; fatally injured, Mrs. Griswold, Miss Toten, Mrs. Cullison and her mother, Mrs. Alexander's two children, Mrs. Huff and child, Geo. Terry, Baby Terry; not expected to live, Bingham Burkett, a student from Montezuma, and Maderi Howard's boy, from Cedar Rapids, visiting the Boyers. Three persons are dead west of town. Barrett Chase, a student from Storm Lake; Henry Moore, a brakeman on the Iowa Central railroad, of Marshalltown, fatally injured. Jno. Digman, conductor of the Rock Island freight, fatally; a tramp from Des Moines, fatally; T. J. Barbour, of Chicago; a hired girl of Deacon Ford and Mrs. Tatten. Eight deaths are reported from Malcolm, which is entirely leveled and destroyed. Brooklyn has also suffered, some eight of the students, badly injured, having been dug out of the ruins. Chapel house is turned into a hospital, some of the most dangerous cases being carried there. Chas. Frye, a brakeman on the Rock Island road at the train wreck north of Grinnell, a child of Jas. Phipps, Mrs. Donohue, two in Alonzo Gillespie's family and three in Beatty's family were killed. One house was completely leveled, burying beneath it Mr. Pittman, his wife and three children, and his wife's sister and her little baby. A three year old girl, Hattie, was killed and a boy, Harry, aged 10, fatally injured, and Arthur slightly injured. Not far away was the residence of Mr. Lewis, an old gentleman and lady. Both were killed.

From here the storm pursued a zigzag course to the north of the city where, after wiping out the finest residence portion of the city, it turned toward the college. The west building was dumped into a heap of lath and plaster and broken timber, burying beneath it eight students, all of whom were afterwards extricated more or less injured; one has since died. The east college building was unroofed, and a fire followed after, completing the work of demolition. Across the railroad track once stood a two-story house, in which Miss Abbie A. Gard was killed. There is hardly a sign left of it. Among acres of ruins in the vicinity were blocks which contained nine houses, all but one leveled to the ground. In one house of this block four persons were killed; Mr. Ford and wife, the hired girl and Mr. Totten. The hurricane took everything north of President Magoon's home, leaving that uninjured. Near here Mrs. Griswold was killed and her house demolished.

IOWA CITY, June 19.—Specials from Irish ridge report loss of life at 10 to 12.

The Storm at Boone.

BOONE, Ia., June 19.—The tornado struck the southwestern part of Boone county on Saturday evening at 8 o'clock. It was plainly seen here and seemed 20 miles away. Reports are just coming in of great destruction in that section, and all buildings on several farms were completely demolished, and a church four miles south of Ogden destroyed. Many persons have been seriously injured, and one man killed. Information is difficult to obtain on account of heavy roads. A woman and child are reported missing.

The Storm at Macon.

MACON, Iowa, June 19.—Five of the best business houses here, both churches, and one-third of the dwellings were demolished by the storm. Several dead bodies have been found. At South Brooklyn three people were killed.

The Kansas City Storm.

ST. LOUIS, June 18.—The *Republican's* Kansas City special says: The severest and most destructive wind and rain storm that has visited this city in years occurred yesterday. The velocity of the wind was estimated at 60 miles per hour. The rainfall was heavy and the lightning terrific. This morning the city presented a frightful spectacle. Not a single square in town escaped the fury of the storm. The streets in every quarter were strewn with signs, awnings, limbs of trees, roofs and debris of all descriptions. Scarcely an exposed building in the city remained whole, chimneys being blown down, roofs taken off, in many cases houses being ruined. It would take columns to enumerate all the damage. Among the more serious losses are the iron bridge between the city and Armourdale, three spans of which are carried away. The bridge cost $10,000. The street railway stables, corner 17th and Madison streets were damaged $8000 or $10,000, and the courthouse suffered to about the same extent. Coates' opera house lost its roof; all the hotels were more or less damaged, and business houses and dwellings in every part of the city suffered greater or less injury. The total loss will probably reach $200,000. Information from the surrounding country shows that the storm was pretty general and that great damage has been done to crops and nearly all kinds of property.

The St. Louis Storm.

ST. LOUIS, June 18.—The steamer Blue Lodge, owned at LaCrosse, worth $10,000, was sunk on the Illinois shore by the storm yesterday, and is a total loss. The steamboat Champion, belonging to Capt. Woodward was sunk outside the dump at East St. Louis, worth $10,000, and is a total loss. Capt. Silvers' two boats were damaged $1000 to $1500.

The loss in St. Louis by last night's storm was about $50,000. Houses, wires, stock, mills, etc., suffered. There was a terrific tornado at Kansas city, and wires are all down. Two men were killed. The loss in Kansas city amounted to $200,000. Leavenworth also reports a terrible storm, five ladies being killed in one house, and great damage done.

Additional Ravages.

ATCHISON, Kas., June 19.—The mail and travelers bring more accurate reports of the effects of Friday night's storm, showing that it extended southward and westward of Kansas City, and doing greater aggregate damage than at first supposed. Many small towns and hamlets were visited, and all are in mourning over loss of life and property. A family of three are reported drowned on a flat boat 10 miles below here.

Cyclone at Metropolis.

CHICAGO, June 19.—A Metropolis, Ill. special says a terrible cyclone struck the city yesterday evening, blowing down several houses, killing Jack Turner, capsizing and sinking the steamer G. E. Walker, and scattering harvested wheat in the vicinity. The damage is heavy.

The Wind at Cairo.

CAIRO, Ill., June 19.—A heavy wind and rain storm this afternoon did much damage to buildings and crops. One person was killed at Metropolis, and the steamer Jennie Walker sunk.

Heavy Rains.

SPRINGFIELD, June 19.—Heavy rains in this vicinity have done great damage to cornfields lately, and wheat and oats are also affected.

The Matchless Liar of Chicago.

Chicago Tribune.

"You do not doubt me Myrtle?"

"Never!" exclaimed the girl, putting on her invisible net as she spoke and placing her bandoline bottle where she would be sure to see it in the morning.

The sun had glared down fiercely all day upon the parched earth, and now that night had come the heat was even more oppressive than ever, because the cool wind that had been wafted from the lake during the day had died away. It was a dreamy, seasonous, one-gauze-undershirt-and-no vest evening such as one often notices while traveling in Palestine.

"You have great faith in me, have you not, little one?" Vivian McCarty said, taking the girl's off hand in his.

"Yes," replied Myrtle, "I believe in you with a child-like faith akin to that which enables a boy to bite a pie in the dark, and I love you with a deep tenderness and fair loyalty that can never die."

"And would you believe anything I told you?" Vivian murmured, kissing the dimpled hand that lay in his.

Looking at him with her starry eyes, in which there gleamed a holy love light, the girl replied slowly and with infinite pathos, "I would believe your every word, no matter what you told me."

"Then," said Vivian, while a baleful light shot from his near eye, "there is no ice cream in Chicago."

For an instant, dazed by the shock, Myrtle did not speak, but presently the voice of her heart found echo in words.

"I can never leave you now," she whispered. "There cannot be another such liar in all the wide, wide world."

The Revolution in the South.

Washington dispatch to N. Y. Herald.

The independent movement in the southern states, from all accounts, gains strength constantly, and unless the southern republicans here, in once more, as has long been their custom, to help the democrats, the independents will make themselves felt in many congressional districts and in all local or state elections in the south this fall.

WOMAN'S WISDOM.

"She insists that it is more importance, that her family shall be kept in full health, than that she should have all the fashionable dresses and styles of the times. She therefore sees to it that each member of her family is supplied with enough Hop Bitters, at the first appearance of any symptoms of ill health, to prevent a fit of sickness with its attendant expense, care and anxiety. All women should exercise their wisdom in this way."—*New Haven Palladium.*

DAVITT IN AMERICA.

Arrival of the Great Agitator and his Remarks on the Situation in Ireland. What he will do, etc.

(SPECIAL DISPATCH TO THE OREGONIAN.)

NEW YORK, June 19.—As already announced, the steamship Germanic, which took on board at Queenstown, Ireland, the patriot and land league organizer, Michael Davitt, arrived here last night. He could not be got at, however, until this morning. The Germanic was at her dock at the foot West Tenth street by 7:30 Sunday morning, and Davitt, accompanied by only a friend, was hurriedly driven to the Everett house, Union square, where a suite of rooms had been engaged for him. There was no demonstration whatever. Davitt cordially invited a number of reporters, who awaited his coming, to his apartments. He was asked first as to his plans. These were, he stated 12 days lecturing through the states under the auspices of a committee of the land league, between this city and Chicago. He had intended to speak in Boston Saturday night, but icebergs and fog prevented his arrival in time. He should, however, proceed to Boston in the afternoon and may speak there in the evening. The object of his visit was two-fold, first to contradict rumors of a split in the land league movement, or likelihood of there being a difference between Parnell and himself; and, second, to explain the work done in Ireland by the ladies' land league in sustaining evicted people, building of houses, and maintenance in law courts of tenants' rights. Miss Parnell had entrusted him with the report of the league since its initiation, a copy of which would be sent to all branches, and to the public through the press.

"In my speech in the Academy of Music," said he, "I shall deal with the present situation in Ireland, will give details of the new departure and new schemes, and explain away these rumors of rupture between Parnell and myself. So far as they are concerned you may say that we are in perfect accord, and I consider affairs in Ireland were never in so hopeful condition. My Liverpool speech, of which only garbled fragments have been published here and used to misrepresent me, was not intended to controvert the old programme, but was in reply to a challenge of the tory press. I defy any one who reads that speech to say that it is communistic in its nature. It is simply an explanation of the cry 'The land for the people,' and to show how it affects Parnell and myself, I shall simply quote from it. The quotation was, 'In doing this I shall lay myself open to the suspicion of differing from Mr. Parnell and most of my colleagues in the land league movement; but the fact is, there is not a particle more difference of opinion between the members for Cork and myself upon the question than there was when we stood together upon a public platform in Westport three years ago. Parnell advocated a peasant proprietary, and I am in favor of land becoming national property of Ireland. If the peasant proprietary is conceded either by Lord Salisbury when he gets into power, or by Gladstone before he gets out, I am perfectly satisfied that the purchase money that must be advanced by the state for carrying out such a scheme will become the title deed of the state to the land. Believing this to be inevitable from the growing poverty of Irish agriculturists, I am almost indifferent as to whether Parnell's plan or my own be adopted; but as I was first to raise the cry of, 'the land for the people,' I think the time has now come for giving a clear definition of what I mean and propose. I wish to state distinctly," continued Davitt, "that no new departure is meant, or split against what has been endorsed by Parnell, and my plan will probably be adopted. It differs only in this, that instead of requiring tenant farmers to pay purchase money for fee simple of their land, it would call upon farmers to pay a land tax that would be equivalent to about one-half the rent now paid to landlords, and Lord Salisbury has almost taken this up. I mean that it should be for perpetual possession of land. I worked the plan out in Portland prison and I am very sorry I ever left there, but if landlords are waiting for the difference between Parnell and myself they will wait until the 20th century. They might just as well charge me with being a cannibal as a communist, and I would be a madman to propose such a thing."

Speaking of the coercion bill, Davitt said that since his imprisonment he had traveled through most of Ireland and thought that the people viewed the measure with indifference. Of course petty annoyance of the bill would arouse the people to outrages, and these leaders fear this as they tell against them in external opinion and can injure no one but the land league. Davitt expressed his condemnation of the cowardly assassination of friendly Englishmen in Phoenix park, the growing horror of the people at the deed, and said there was a general impression that it was the work of landlords to incite English people against Parnell's conversion of Gladstone. The only parties who would profit by it would be those opposed to the league, as they knew odium would fall upon the leaders. Gladstone's position he considers critical, particularly on the Egyptian question, and the bringing forward of the arrears bill and second attempt to deal with the land act and its failure, justify the opposition of Parnell. The arrears bill was a confession and the land act a failure. Of Minister Lowel the agitator said he knew only a little, but of his own opinion thinks that the blame lies not so much on Lowell as it does on the government in Washington. He says he will not enter parliament again, as he can do more effective work on the outside. Landlordism as a system, he claims, is broken and demoralized, and the question of self-government will follow in the wake of the land league movements, as politically landlords are now a myth.

Davitt will return at the expiration of two weeks, in order to hold a conference with Parnell and other leaders. His secretary, Redmond, will remain here to complete his political education. The British government, it is said, had considered Redmond such a terror that they locked him up in order to prevent his doing harm to them. Later in the day, or rather immediately after luncheon, a committee of citizens resumed charge of Davitt and Redmond, and in the parlors of the hotel Prof. Brophy read an address of welcome.

A Great Singer's Meanness.

Between Patti and her sister Carlotta, as the world knows, there is undying hatred. The last mentioned is a great artist and a woman of great heart. She is really loved by many in her career, and when a dreadful operation was performed on her in Paris two years ago the whole world sent messages, letters and dispatches, all of anxious inquiry; but from the sister whose arms had proffered many a childish embrace there came not one word of love and sympathy. All the while that Carlotta Patti was in the hospital with the good sisters of St. Joseph, Adelina was at the Hotel du Rhin, and during fourteen anxious days, while hovering between life and death, an own sister, she never sent a word to know how she was, and said, when asked to come and witness the operation and join in the sentiments taken with the family before the chloroform was given, that "she did not care whether she lived or died, and not to annoy her any more." Mme. Strakosch did not dare tell Carlotta the truth, and the poor invalid believed until she was quite out of danger that an old feud had been healed over, and that a favorite sister had scarcely left her bedside, during so terrible a trial. We will not repeat what Mme. Carlotta said when she learned the truth. It was the talk of all Paris.

His Last Wishes.

A CARD TO THE PUBLIC.

A testimonial (so-called) published in THE OREGONIAN, purporting to have come from Julie Rive-King, the famous pianist, and without the signature of the author, wherein she appears to now endorse the Steinway piano, demands a reply. Not only in justice to this great artist, but in justice to the famous Decker Bros. piano, which Madam King uses *exclusively* at all of her concerts. Perfection in the construction of a piano is the great desideratum desired by such artists as Madam King. We admit that the Steinway once sustained quite a fair reputation—purchased with money—and many were sold for first-class pianos. But, like the stage coach of ye olden-time, is left behind, to give place to the elegant palace cars. Messrs. Decker Bros., of New York, after forty years of untiring energy, have produced the crowning perfection in piano-fortes. So enviable is their reputation that unprincipled parties have attempted to pirate their name and counterfeit their pianos. Yes, resurrect from dusty archives feigned testimonials to support their falling business. In conclusion, suffice it to say, that the most convincing proof of the superiority of the Decker Bros. piano is that Madam King uses none other at all of her concerts. An electrotype testimonial to Messrs. Decker Bros., bearing her autograph, will appear in a few days.

TUESDAY MORNING, JUNE 20 1882

THE CITY ELECTION.

Dr. J. A. Chapman is elected mayor, chiefly by the non-taxpaying voters of both parties, led by the machine managers of both. All the politicians and political workers of both parties were led by their affinities to make the election of Chapman a common cause. Thompson is not in favor with the ring managers of either party. It is gratifying that the bosses have now themselves set an example of "bolting." Others will doubtless be bolting on future occasions, when the ring managers will be in greater distress about it than anybody is over the consequences of their bolting now. For ourselves we have only to say, that we have supported Thompson for mayor only because he is certainly the better man for the position. His defeat is no cause for regret except as it may, and certainly will, affect important public interests. Not questioning the fact that Dr. Chapman is personally an estimable man, yet he is not identified with the business activity of the city as Mr. Thompson is, and is not in position to serve it so well. This fact, which the business classes generally kept in view, was disregarded by others in the contention growing out of the personal and political differences which have long been gathering cumulative force, and in the scramble for places which it is supposed a new administration will have to bestow upon its friends. In a word, Thompson was beaten because he is disliked, or rather hated, by the machine managers; because he is not acceptable to the large class who would like less vigilance and more looseness in the conduct of the city government; because not a few had personal revenges to gratify; because any administration of the city's affairs, if it be careful, thorough and efficient, will in a few years develop a strong opposition; and finally because place-hunters, whose name here is legion, stand ready always to work with desperation for any change that holds out to them a hope or promise. Of those classes who vote only from a disinterested regard for the interests of the city, Mr. Thompson had by far the larger number among his supporters. To him, or to any man situated as he is, the office, of course, is nothing. The city has far more need of the kind of efficiency which an able and untiring business man brings to the position than such man can have in holding it.

DISREPUTABLE BUSINESS.

Three or four days ago the telegraph reported that the republican congressional committee had applied to department clerks and government employes about Washington generally for a specified percentage of their pay, to be used in this fall's campaign. The mails bring one of the circulars by means of which these demands are made. It is practically a copy of similar documents which attained wide circulation during the Grant-ring rule. Government employes are "urgently requested" to "donate" for "legitimate campaign purposes" two per cent of their quarterly pay. There is some accompanying twaddle about the grand old party, etc., etc., and the whole is stated to be by authority of the congressional committee, and is signed by its officers.

This proceeding is disgraceful under any circumstances, but it is especially obnoxious in view of the recent conviction of General Curtis of [illegible] a United States statute for doing the same thing. General Curtis is connected with the government customs service in New York, and he also acted as treasurer of the state campaign committee of the republicans. In the latter capacity he collected from other employes of the government contributions for republican campaign expenses. There is a United States statute which makes it a misdemeanor punishable by a fine of $500, for a government employe to do this business, and that law has been sustained by the United States courts in the case of General Curtis. It seems almost incredible that, in the face of this fact, a committee made up of members of congress, from which this law emanated, should recommend and sanction the practice which the law condemns and punishes. It is true that members of congress are not amenable to punishment [illegible] government employes [illegible]. There is certainly a [illegible] upon them to discountenance the practice of levying assessments upon office holders for party purposes, when the collection of such assessments by government employes is a violation of law. If they are [illegible] to disregard that obligation to the extent of sanctioning the practice, then the law should be enlarged in its scope so as to include them within its reach and make their punishment severer than that meted out to those who act really as their agents.

The congressional committee is made up of the following gentlemen:

Alabama, J. Q. Smith.
California, H. F. Page.
Connecticut, John T. Wait.
Florida, Horatio Bisbee.
Illinois, George R. Davis.
Indiana, W. H. Calkins.
Iowa, Senator William B. Allison.
Kansas, Thomas Ryan.
Kentucky, John D. White.
Maine, Senator Eugene Hale.
Maryland, [illegible]
Massachusetts, William A. Russell.
Michigan, Jay A. Hubbell.
Minnesota, William D. Washburn.
Mississippi, James R. Lynch.
Missouri, R. T. Van Horn.
Nevada, Senator John P. Jones.
New Hampshire, Joseph F. Briggs.
New Jersey, George M. Robeson.
New York, Frank Hiscock.
North Carolina, Orlando Hubbs.
Ohio, William McKinley, Jr.
Oregon, M. C. George.
Pennsylvania, [illegible] Fisher.
Rhode Island, Senator N. W. Aldrich.
South Carolina, E. W. M. Mackey.
Tennessee, L. C. Houk.
Virginia, John F. Dezendorf.

A sub-committee of nine has been appointed to do the work, but every man on the committee is responsible for its action so long as he withholds his protest. It is disreputable business to squeeze clerks and other employes who are working for $600, $800, $1000 and $1200 a year in order to raise campaign funds. The practice ought to be punished by law, but those who should be punishable most severely are those intrusted with the law-making, who ought to be the last to tolerate, and much less advise, the violation of the law. The conviction of Gen. Curtis is only regrettable because it is exceptional. The levying of assessments on officeholders, whether of high or low degree, is obnoxious to all true principles of civil service, and "requests" for contributions should never come from superiors in office nor from congressional office-brokers. It ought to be made unlawful in the case of the latter as well as of the former.

The president of the Illinois bar association, C. C. Bonney, is out in an address in which he boldly says that the delay, expense and uncertainty attending the enforcement of rights and the redress of wrongs have become gigantic evils, and that our criminal jurisprudence abounds in absurdities and obstructions to justice. He declares that the ax of reform must be whetted, and laid at the root of the tree. He wants more simple and speedy systems of pleadings and practice, that the enforcement of justice shall be made complete and immediate. This is just what all intelligent newspapers have long been saying. The old dry nurses of law and theology call it the mob principle.

An amusing story is told by the Philadelphia *Times* about Conkling's resignation from the senate last year. When that event occurred Senator Jones, of Nevada, who is an intimate friend of Conkling, arranged with Senator Cameron, of Wisconsin, to take Conkling's seat and keep it for a few days until the New York legislature had re-elected that statesman. Cameron, of course, is still watching and waiting.

Events of the few weeks during which Mr. Teller has held the secretaryship of the interior, have proved the fitness of a western man for western affairs. His conduct of Indian affairs has been sensible and practical, and being so, contrasts strikingly with the doings of former secretaries. He has struck the right mean between extremes with the Indian, between making a pet of him and exterminating him. That his policy is understood by the Indians themselves was demonstrated at Leadville recently when Steamboat Charley, a Modoc whose name and career are too familiar to Oregonians, addressed an assemblage of red skins. He said, referring to the order disarming the Indians: "If caught off your reservations without permit, mounted and armed, you will be killed. That is what it means. If an Indian goes off with a gun and a pony; if he will not surrender, he will be killed and the Indians will soon learn what will be the best thing for them. The Indian must learn that the white man is master. As fast as one white man is shot down another white man takes his place. It is no good to go to war." Much may be expected of an administration so well begun.

The hunt for the author of the Morey letter is beginning to assume the character of the search for Charlie Ross. Every now and then it is announced that the veritable person who wrote the letter has actually been found and identified, and then this is all taken back, and we are treated to mysterious hints as to Mr. Davenport's wonderful discoveries of the traces of the forger. Perhaps it would be just as well to allow Mr. Davenport to pursue his investigations to a final and definite conclusion without any further bulletins as to what marvelous things he has done, or is going to do. The best way to catch a thief is not to forewarn him of the process by which you propose to entrap him.

The only chance, in the opinion of the *Pall Mall Gazette*, of success in building up the fabric of government in Ireland, consists in gaining the sympathy and support of those who are pronounced to be for the first time something like their own masters. "The old order of society has been shaken down," the power of the landlord has been "broken to pieces," and the "power of the priests weakened by the ballot and the tide of democratic ideas from America." Thus, according to the *Gazette*, the mass of the peasantry are left to their own devices, and require protection against the miseries of anarchy until a new system of government is devised for them.

At last the terms for the payment of the Russian war indemnity by Turkey have been agreed upon, and they are remarkably favorable to the conquered nation. Russia is to have no interest upon her claim of £40,000,000, and is to receive payment on the principal at the rate of £350,000 per year, which will give Turkey about 115 years in which to pay the indemnity. Still, it is very doubtful if Turkey can spare even £350,000 a year, and she will probably have to rob Peter to pay Paul. The payments are expected to come from the revenues of certain districts over which by the terms of the agreement Russia will have a certain supervision.

The liquor bill of the Yorktown Centennial celebration has been a subject of much discussion, not to say scandal. The liquors ordered by senators and representatives alone, and charged to the government, amount on the bill to $6529, including an item of 130 cases of champagne ($3000), one of 68 gallons of whisky, one of 22 dozen of sherry, 15 gallons of brandy ($1830), and $250 worth of Rhine wine. When this bill came up in congress some days ago, one member said "it was very sad." This is true. And there could be nothing more gloomy than the entire absence from the bill of anything to sober up on.

Though our rainy season in Oregon is always a long one, we do have the dry season regularly and always know what to depend on. But the Mississippi valley during the last eight months has been visited by constant rains. Nearly or quite two years' average rainfall has descended in that time. Flat lands have been too wet to cultivate during this whole period, and low lands have been constantly flooded. The result will be a serious diminution of the cereal crops of several states.

In discussing the aspects of the Irish question, and the manner the government is treating it, the London *Spectator* says, with a great deal of force: "Insurrection can be put down; but how put down a social war raging in every farm, supported by a people you cannot kill, waged by methods as much beyond the action of cannon as the hail or the snow? You might as well try to harness deer to plows as put down a universal resolution not to continue to cultivate as tenants-at-will."

Part of the programme of the republican ring masters was the defeat of Dr. S. J. Barber in the second ward. That ward is largely republican, and he could easily have been elected. But a democrat suits the machine managers better. They are laying the groundwork for a great deal more independent voting in future than they ever before heard of.

TUESDAY MORNING, JUNE 20, 1882.

CITY.

Fourth of July at Vancouver.—Preparations for the celebration of the national holiday at Vancouver are already in progress, and will be complete in every detail. Ellsworth post No. 2 is arranging to entertain the comrades of posts in Oregon and Washington territory who may attend. General Miles will furnish camp and garrison equipage for the accommodation of all visiting comrades. Tents will be provided on the garrison grounds, not only for comrades of the various posts, but also for their families. Visitors should bring their own lunches, as the crowd will be too large for the hotels and restaurants to supply. In the evening a grand display of fireworks will be exhibited near the encampment. The pyrotechnics are a gift from the Mexican war veterans of Portland, as a recognition on their part of the hospitable manner in which they were entertained on Decoration Day at the residence of General Henry A. Morrow. The oration of the day will be delivered by General Morrow, and other appropriate exercises will be held.

High School Services.—The sale of reserved seats for the graduating exercises at New Market theatre Thursday evening will commence at Prentice's music store this morning at 8 o'clock. No arrangements for receiving flowers in the afternoon have been made. Ample provision has been made for receiving bouquets at the door in the evening, and they will be passed up to the stage to the graduates when diplomas are handed to them.

Catholic Fair.—At McMinnville on the 26th, 27th and 28th of June the ladies of the Catholic church of that place will hold a fair, the proceeds to be applied towards paying off a mortgage of $500 now upon their building. Great preparations have been made and the Reevy children will give one of their excellent entertainments at the close.

Assignment.—O. B. Terry, a grocer, corner First and Columbia, made an assignment yesterday to O. Summers, for the benefit of creditors. His liabilities are about $3000, principally to wholesale merchants, and his assets, consisting of stock, outstanding debts and fixtures are about the same.

Harvesting Begun.—A telegram from Walla Walla says that harvesting of barley began in that neighborhood yesterday. The grain is of unusually fine quality and the yield large. A considerable quantity will be ready for shipment in ten days. The wheat harvest will begin about July 1st.

The Garden Party.—The fate of the proposed fete of Trinity guild is with the fates, that is, it hangs upon the weather. If the sun shines to day and to-morrow it will occur to-morrow afternoon and evening, as announced. Otherwise, otherwise.

Change in Steamers.—The Wide West, which has been undergoing repairs since the Thompson came down, resumes her place on the Cascades route this morning, taking the place of the S. G. Reed, which will be laid up for the present.

Died.—Mrs. Ellen Skinner, who met with an accident at Coburg last week which necessitated the amputation of an arm, never rallied from the shock occasioned by the amputation and died therefrom.

Slight Accident.—The R. R. Thompson on her up trip yesterday morning blew out a bolt from her boiler, which detained her at Vancouver several hours. No one was injured.

THE CITY ELECTION.

DR. CHAPMAN ELECTED MAYOR BY 546 MAJORITY.

Smith Elected Councilman in the First, Scoggins in the Second, and Adams in the Third Ward.

The election yesterday passed off quietly, and only a light vote was polled. Ballots cast were as follows: First ward, 1209; second 1060; third, 1457; total, 3726—an increase of only 75 over the vote of last year. Good order was maintained at the several polling places. In the first ward there was a large crowd present all day, and though there was much jostling and loud talk, no disturbance occurred. From three o'clock on not less than forty men were in line waiting to vote, and when the polls closed about fifty were still in line, and were, of course, shut out.

The Vote.

STATEMENT FROM CONSTABLE SIMMONS.

Portland June 19.

To the Editor of The Oregonian:

I noticed in this morning's Oregonian a letter from Chief Police Crowley, of San Francisco, wherein he claims the reward that was offered for the arrest and conviction of the parties who murdered Jas. N. Brown. In answer to it I will simply say that the reward, as it stands on the journal, reads as follows:

"The county of Multnomah, state of Oregon, will pay to the person or persons who will detect the murderer or murderers of the man found in the river and secure the conviction of the same."

As it happens Judge Rice was very particular when he penned that reward, knowing full well that there would be plenty of officers who would put in their claim if there was the least shadow of a show of getting it. But thanks to him for his care, they are all shut out. Now, Crowley says that he arrested Bradley on the dispatch from Lappeus. Such is not the case. He told me in San Francisco "that he received my dispatch about 2 o'clock in the afternoon, and a dispatch from Lappeus at about 7 the same night." My dispatch read as follows:

"Arrest Bradley on the Idaho, due from Victoria to San Francisco, on charge of murder. Nellie Johnson, of No. 9 Beldon place, will identify her."

Chief Crowley told me that she, Nellie Johnson, was too drunk to identify anybody, and they had to get another woman who did it.

My dispatch to Chief Crowley in regard to Mahone read as follows:

"Arrest Jack Mahone for murder. You will find him on Bush street, at No. 2's engine house."

And that is where he found him. My dispatch to Sheriff Hahn read:

"Hold Sullivan until I arrive with requisition."

Sullivan gave himself up and sent a dispatch to Lappeus to that effect. What arrangements he had, or what he expected to gain by these proceedings, I do not know. When I left San Francisco with the prisoners I asked Mr. Crowley what his bill was, and he said the clerk, Mr. Wright, was out and he did not know exactly what it was, but he said he gave the woman $10 for her services, and they hired three hacks, and that he would have the bill made out and sent up to me, and I was to receipt the same.

BAKER COUNTY NEWS.

[FROM THE OREGONIAN'S LOCAL CORRESPONDENT.]

Baker City, June 10, 1882.

G. O. Holman is in Pendleton attending court.

All farmers report crops looking in first class condition.

The thermometer was at 95 degrees in the shade at 2 o'clock this afternoon.

Captain and Mrs. J. C. Ainsworth are here recruiting their health. Capt. Ainsworth is largely interested in mining with Capt. Myrick.

Powder river valley is one of the very best sections in Eastern Oregon. If the farmer here cannot laugh at big prices he can smile on a large yield.

There is quite a boom in real estate here now. Many strangers are in the city in quest of lands and farms, and they have unquestionably come to a good locality.

The past week one W. B. Powers, of North Powder, was held to answer to the next circuit court for having stopped his son-in-law, J. H. Hutchinson, with a presented gun, while the latter was traveling unarmed upon the public highway.

The official vote of Baker county is as follows: George, 611; Fenton, 603; Hirsch, 511; Abraham, 592; Earhart, 189; Weatherford, 612. The remainder of the state ticket is about the same as Earhart. The canvass of votes was not made till this afternoon, in consequence of the lateness of the arrival of the Jordan valley poll books. The democratic state senator, Haines, was elected by about 120 majority, and all the democratic representatives are elected. The democratic county ticket is all elected, excepting A. A. Thompson, assessor, and Julius Bonbeeger, coroner.

SUDDEN DEATH OF ROY. HOLLABAUGH.

[SPECIAL DISPATCH TO THE OREGONIAN.]

San Francisco, June 19.—Yesterday morning Royal Hollabaugh and wife visited San Francisco and returned to Oakland in time for lunch at the Windsor house, where they have been staying. Mr. Hollabaugh complained of a severe headache after lunch and lay down on the bed. At 2:30 o'clock he went into spasms and was attended by two physicians, but without avail. He died about 4 o'clock. The cause of death was congestion of the lungs and brain. Mr. Hollabaugh was only 22 years of age and five months ago married Miss Minnie Overacker. Up to a week ago he had been employed at Nolan's boot and shoe store, San Francisco, as salesman and left on account of ill-health. His mother is subject to heart disease and it is feared that she cannot survive the shock.

AN OCEAN DISASTER.

Wreck of the British Steamer Escambia off San Francisco—All on Board Lost.

SPECIAL DISPATCH TO THE OREGONIAN

San Francisco, June 19.—About 5 this afternoon the British steamer Escambia, loaded with wheat, put to sea, bound for St. Vincent, Portugal. Information from the signal station at Point Lobos is now received that when about five miles off the heads the steamer capsized and sunk, and so far as is known all hands are lost. The tugs Wizard and Rescue have gone out. In the meantime it is impossible to account for the catastrophe, as the weather was fair and wind and sea moderate. The only thing at present assignable is that a quantity of coal carried on deck rendered the ship topheavy. The pilot who took the steamer out says that the water ballast tanks had all been pumped out to render the ship lighter for carriage of cargo, and coal was stowed on the deck as high as the bridge. While going down the harbor the machinery was stopped for a few moments and the ship falling off into the trough of the sea, rolled her scuppers under. The pilot expressed the opinion that she was unsafe and believed that the catastrophe might have been expected in open water. The disaster was seen from the signal station, but it is impossible to say whether any one was saved. The ship's company consisted of about 25 men all told. She was loaded by Dresbach & Co. and it is believed her cargo was fully insured. The Escambia was about 2000 tons burden and came from Hongkong via Victoria with Chinese passengers.

WILLAMETTE UNIVERSITY COMMENCEMENT.

On Monday evening the Concordia and Hesperian literary societies held their annual entertainment, which was purely literary, but of a high order. Rev. J. S. Knight, A. M., pastor of the Congregational church, made the opening address, in which he reviewed his experience as one of the first members of the Hesperian society, twenty five years ago. His address was very interesting.

Tuesday evening occurred the graduating exercises of the academy. Those who represented the class in orations and essays are, Misses Mary Elizabeth McClench, Arolta Florinne Royal, Elizabeth Flint Dearborn, Fannie Greenwood, Messrs. Abraham Lincoln Clarke and Harrison Jones. The other members of the class are Misses Nellie Alena Smith, Sand Adams, Lillian Grace Adams, Lillian Rosetta Richardson, Clara Ellen Croisan, Messrs. Scott Jones and Bowen C. Ward.

Four are in the classical course, two in the Latin scientific, one in the modern literature and art, four in the scientific, one in the teacher's, and two in the business course. Miss McClench received diplomas in both the Latin scientific and teacher's courses.

The board of trustees met on Wednesday. Prof. Andrew, Mrs. Andrew and Miss Quinvey resigned on account of insufficiency of salary offered them. Prof. S. A. Starr was elected in place of Prof. Andrew. The places of Miss Quinvey and Mrs. Andrew will be filled soon. The trustees have about $600 yet to raise in order to meet the conditions of the Portland Academy property, which will put the university in possession of about $27,000. Twenty-two rooms are to be added to the woman's college this summer. Three hundred and twenty students were enrolled during the year, which is an increase of twenty over last year. Everything was considered hopeful by the trustees. They obligated themselves to the plan of henceforth running within expenses.

The alumni occupied Wednesday evening in excellent literary exercises and a reunion. Robert A. Miller was the orator, Samuel L. Simpson the poet and Chas. A. Johns the annalist.

Thursday at 10 o'clock the commencement occurred. Miss Mary Caroline Starr, the only graduate, read a very well composed essay, and Rev. Harvey K. Hines, D. D., delivered the commencement address. Mr. Hines was more than up to his usual ability in his excellent address.

The following degrees were conferred: Bachelor of Arts, Miss Mary C. Starr; Master of Arts, Milton T. Crawford of the class of '70, Henry H. Hewitt of the class of '70, Madison L. Jones of the class of '71, and Richmond Kelly of the class of '78; Doctor of Divinity, Rev. H. K. Hines, editor of the *Pacific Christian Advocate*, Rev. William Roberts and Rev. Nehemiah Doane.

At 3 o'clock on Thursday occurred the commencement of the Conservatory of Music. The exercises were excellent. Miss Gertrude Moores graduated from the conservatory in the virtuoso course.

On Tuesday evening the students, teachers and patrons presented President Van Scoy with a handsome gold watch and chain valued at $100. Mr. Charles Gray made the following presentation speech:

"President Van Scoy—I am deputed to congratulate you on the wise and successful administration of the affairs of Willamette University during the year just closed. Appreciating the impartial manner in which you have discharged the arduous duties of your office, and as an evidence of our continued confidence and affection for you as a teacher and citizen, I am instructed in behalf of the professors, students and friends of the University, to present you with this gold watch and chain."

The president was greatly surprised, but acknowledged the gift in well chosen and appropriate words.

PRIZES AWARDED.

The prizes awarded at the two declamation contests during the commencement of Willamette university were given to the following persons:

Saturday evening contest—First prize, Miss Livia Rowland, a fine copy of Shakespeare; first prize, Mr. Will H. Andrew, a fine copy of Shakespeare; second prize, Miss Ann Cavanaugh, a fine copy of a Thousand and One Gems of Poetry.

Monday evening contest—First prize, Miss Jennie Griffith, a gold medal; first prize, Mr. John C. Griffith, a gold medal.

The following students received a money prize of one dollar each for promptness in the performance of all required work in literary exercises: Mr. George Shepherd, Mr. Alanson Savage, Miss Ellen Robertson, Miss Alice Hartman, Miss Ottie Clark, Mr. George Dimick, Miss Jennie Griffith. Prof. Jory donated medals and money prizes, Miss Luse donated the book prizes. Miss Luse trained all the speakers, which fact reflects much credit on her ability as an elocutionist. All of the renditions were excellent and the contests were among the most pleasing entertainments of the entire week.

STATE UNIVERSITY COMMENCEMENT.

AFTERNOON EXERCISES.

After music by Miss Mary E. Test, Mr. C. F. Miller delivered a well-written oration on "Napoleon Bonaparte." After giving an account of his early life and the difficulties that presented themselves to retard his progress, he glanced at his influence as a monarch on one of the proudest of the age. He said: "Aristocracy in times of peace remains unbroken, resisting every attempt at its overthrow by those above ... and reaching for ... great ... its ... then ... from the rank and file ranks to the highest fame, Bonaparte's civil record stands ... his warrior deeds." The speaker reviewed the history of Napoleon, and closed with an analysis of the features of his character as a warrior, statesman and ruler.

"Whither, old woman, whither so high?
To sweep the cobwebs out of the sky?"

Was the theme of Miss Eva Rogers. Her essay was delivered without manuscript and some of the audience received her effort as one of the best. She said: "Thus we lay aside the realities and take up the cobwebs of life. ... We have ... but ... the cobweb is the ... of the full meaning, the world is passing from darkness to light, shall we still cling to the old cobweb chains which bind us, or shall we burst the fetters and hasten the day when every cobweb shall have been swept away? For then the golden era of happiness will dawn upon the earth."

Miss Maggie E. Sargent, who has ever proved herself one of the champions for right and for the true spirit of reform, next appeared in a spirited essay on "Woman as a Voter." Her presentation of the subject was by far the best ever heard in the university halls. It was strong and convincing, yet free from abuse and truly womanly. She said: "The great mission of this century seems to be the advancement of liberty and equality. Governments have renounced monarchy and put on republicanism, and woman asks that liberty be proclaimed to her. Woman's work has been to make bricks without straw; the world is beginning to recognize the separate responsibility of woman. Why do we not find one class of men administering government for another? Has woman lost everything of her womanliness by placing herself on an equality with man in our colleges? Woman exerts a greater influence today than at any time during the past. Has not civilization been in one straight onward course? Moralists argue that progress has not been so rapid as it should have been, which implies that some element is wanting, and may it not be that this element is woman's power?"

"In the Beginning" was the subject of an essay by Miss Rubie P. Spiller. Miss Spiller has had the best elocutionary training in the university and has her voice under the best of control. She said: "For ages this grand anthem 'In the beginning' was accepted with childlike trust as literal history. 'In the beginning'—the magic wand of science touches these three words, and lo! they expand into untold millions of years. The grand simple truths of Christianity stand to-day stronger for the war that has been waged against them. We never weary of tracing the unfolding of mind and character in a Columbus or a Luther; the midnight oil has ever kindled the fire that has burnt out ignorance and error; our life here matters little if we are ready to make our 'last beginning' in a world of everlasting progress in truth, purity and glory."

Miss Mary E. McCornack, the valedictorian, presented as the theme of her essay, "The higher education of woman." "In times past," she said, "very few women cared to acquire a liberal education. Chivalry, while aiming to protect the weak, only made a doll and plaything of woman. When right began to triumph over might, when mind gained new freedom, when the pure influence of religion began to sway mankind, woman too longed for the strength of knowledge and the beauty of truth; civilization has come nearer and nearer to the prize; literature, art and language are all adapted to woman's nature; home is to be ennobled and beautified, society purified and elevated, and the world needs a new spiritual and moral force instilled into it." The valedictory is to be commended for its freshness, beauty and pathos.

President J. W. Johnson congratulated the class on the faithful work of some of them during a six years' course. He then conferred the degree of Bachelor of Arts on Eva Rogers, George M. Hoyt, Arthur L. Frazer, C. F. Miller and George Noland, and of Bachelor of Science on Edward Bailey, S. W. Condon, Alice Dorris, Ida Dunn, Maggie E. Sargent, Rubie P. Spiller and E. McCornack. Geo. Noland was a Bachelor of Science of 1880, and having returned and completed the extra work was this year made a Bachelor of Arts.

The exercises of this day were accorded the highest praise by all who listened to them. The choir, under the leadership of Prof. Bailey, has enlivened the exercises with anthems and choruses. The reunion of the alumni at Prof. Bailey's at 8 P. M. was one of the most social gatherings of the week. All unite in saying they had a good time, and so closed the fifth annual commencement of Oregon's state university.

TUESDAY MORNING, JUNE 20, 1882.

THE SILVER LINING.

Through gloom and mists and mournful rain
The winds cry merrily from the lane—
"After the storm sunshine again!"

When frosts of winter whiten all,
Strewing abroad their fleecy pall,
The springtide utters its magic call.

Then, on the fresh and crispy air,
With nature leicled and bare,
Blooms cheerily the morning fair.

First to the wildwood song-birds fly,
And buds peep out on the branches high,
While wavelets whisper and cloudlets sigh.

Close by the lone one, sad and drear,
A smile stands ready to kiss each tear—
The broken-hearted to heaven are near.

COSTLY PROSPERITY.

War Taxes Maintained for the Sake of Protecting Special Interests.

New York Times (Rep.).

The debt of the United States was reduced during the month of April by $14,415,823 74—in round numbers, fourteen and a half millions of dollars. During ten months which have gone by since the opening of the fiscal year the total reduction of the debt has been $128,748,214. If the average reduction for these ten months be kept up for the two remaining months of the year, the total reduction will amount to about $155,000,000, and if the debt is reduced as much during the next two months as it was during the last two, the total reduction will be over $160,000,000. There will not be found wanting a goodly number of patriots to congratulate each other and the country on this evidence of our "prosperity." The prosperity is not to be questioned; the occasion for congratulation is not so clear.

Glance a moment at the sources of the revenue with which this enormous payment of the debt is being made. Last year $200,000,000 of the $360,000,000 of revenue came from custom duties—in all 55 per cent. This year the total from customs will be larger, and the proportion larger also. Of the total amount received for customs, six leading classes of imports contributed 69 per cent. These were:

	Duties.	Per Cent.
Sugar and molasses	$47,981,032	24.79
Wool and woolens	27,285,614	14.10
Iron and steel and manufact'res	21,461,584	11.09
Silk and manufactures	19,068,865	9.84
Cotton and manufactures	10,8 5,115	5.59
Flax and manufactures	6,984,376	3.60
Total	$133,580,345	69.01

The average duty on sugar and molasses was 51 per cent. and over; on the grades principally imported it was from 55 per cent. to 53 per cent. Every family in the country paid this heavy tax, and those who could least afford it paid proportionately by far the largest share. On wool and manufactures of wool the average duty was 67 per cent. This, too, was paid by every family, and relatively the larger part fell on the poor consumers. Iron and steel and their manufactures paid an average duty of 47 per cent. It fell not only on the dwellings of all, but on the fences of the farmer, the tools of every workman, the machinery of every factory, and through these and the increased cost of transportation on the food, and clothing of the whole people, and with the fatality of tariff taxes it rested heaviest on those who felt it most. Cotton goods paid an average duty of 38 per cent., and flax and linen goods 35 per cent. These fall not only on the clothing of all, most onerously on that of the most laborious and least wealthy classes, but it fell with special force upon such classes as the sewing women, the worst paid and hardest worked members of the community. In short, to pay off our war debt within the lifetime of a single generation the government is taxing transportation, food, shelter, clothing, tools, and machinery, the very things which of all others should be exempted from taxation as long and as far as possible. To save a few dollars in interest each year it is loading down the instruments of trade and industry, the means by which the common people earn their living, or else those by which life is sustained. "You do take mine house when you do take the prop that doth sustain my house."

Nor is this the most unfortunate feature of the present system of raising and expending the revenue. The taxes which are paid into the treasury on the imports of food, metals, and clothing are only a part, and by far the smaller part of the taxes actually paid by the people. The government's share is levied on the importations made in spite of exorbitant duties; but these duties enable favored capitalists to exact higher prices from the consumers, and the money thus obtained, which it is pretended goes to the employes of the capitalists, really goes either to swell their own profits inordinately, or to compensate them for mismanagement, incapacity, or laziness. In no case does the workingman get more than the market rate for his labor, while he, in common with the rest of the community, is taxed in every branch of his living expenses. And this singularly clumsy and costly, unequal and unfair method of taxation is the one with which congress professes itself utterly incapable to deal, and proposes to turn over to an outside commission to investigate, with the single aim of avoiding any definite action upon it. It is a serious mistake for the leaders of the majority to suppose that a policy of this dodging and cowardly character will satisfy the public opinion which is steadily becoming more clear and more urgent in regard to the whole question of taxation. The country does not desire, and is in no danger of desiring, absolute free trade or any near approach to free trade, but it is awakening to the costly nature of the tax system which has survived from the war, and the essential features of which are wholly inconsistent with the present condition of the country and the real needs of the government.

Crop Reports.

St. Louis, June 19.—Dun & Co.'s commercial agency have crop reports from Missouri, southern Illinois, northern Arkansas and Indian territory. In the droughty season of last year, even it appeared that the husbandman balanced, after all liabilities were discharged, but a hopeful feeling. Arkansas farmers are despondent over the failure of cotton and corn to sprout. The decreased acreage of cotton in Missouri was put up and replanted in wheat and corn. In some places tobacco is not promising. In northern Arkansas wheat is in fine condition and ready for harvesting. In many places the acreage has increased from 5 to 100 per cent. Three-fourths of the district will yield 20 to 25 bushels per acre. Corn is very backward and in some places planting is not finished. The acreage is enormous. Eight counties in Missouri, four in Illinois and one in Arkansas report great damage to corn and hay by rain and army worms. Oats are improved and fine everywhere, and grazing has been excellent and most animals are doing extremely well.

Boston News Budget.

Boston, June 17.—A fire this evening in Cambridge burned the large stables of Sawen's express company. Two hostlers, sleeping in a hay loft, and 15 horses, were burned to death. A number of wagons, harness, etc., were also destroyed.

The English Grain Market.

London, June 19.—English grain markets are inactive and cargoes of both wheat and corn on passage are rather easier. There is no change of quotations from Saturday. Weather in the United Kingdom is fine for crops, and on the continent is fair.

FROM THE HUB.

There is perhaps no tonic offered to the people that possesses as much real intrinsic value as the Hop Bitters. Just at this season of the year, when the stomach needs an appetizer, or the blood needs purifying, the cheapest and best remedy is Hop Bitters. An ounce of prevention is worth a pound of cure, don't wait until you are prostrated by a disease that may take months for you to recover in.—*Boston Globe.*

If you are a man of business, weakened by the strain of your duties avoid stimulants and use Hop Bitters.

If you are a man of letters toiling over your midnight work, to restore brain nerves and waste, use Hop B.

If you are young and suffering from any indiscretion or dissipation; if you are married or single, old or young, suffering from poor health or languish on a bed of sickness, rely on Hop Bitters.

Whoever you are, whenever you feel that your system needs cleansing, toning or stimulating, without intoxicating, take Hop Bitters.

Thousands die annually from some form of Kidney disease that might have been prevented by a timely use of Hop Bitters

Have you dyspepsia, kidney or urinary complaint, disease of the stomach, bowels, blood, liver or nerves? You will be cured if you use Hop Bitters

If you are simply weak and low spirited, try it! It may save your life. It has saved hundreds.

DR. PAUL M. BRENAN,

THE

Most Successful Physician on the Pacific Coast in the Treatment of

ALL CHRONIC & DIFFICULT DISEASES

DR. BRENAN WILL GUARANTEE TO CURE any form of disease of the generative organs or private disease. He has become an expert in the treatment of disease, weakness and derangement of the reproductive organs of both male and female, including diseases caused by the

FOLLIES OF YOUTH,

Such as Spermatorrhœa, or Seminal Weakness, or Loss of Perfect Vitality. Nearly two-thirds of all the Chronic Diseases spring either directly or indirectly from some derangement of the sexual system, and yet this subject is neglected by the majority of the Medical Profession.

I know that persons who are unfortunate enough to be afflicted by any form of sexual disease have a delicacy in calling upon the proper physician in time, from a sense of modesty and sometimes from ignorance, and permit those diseases to exist until their constitutions become corrupted, their organization broken down, and the hopes of future happiness blighted, until death becomes a welcome messenger to carry them out of their miserable existence.

Everything strictly confidential under all circumstances.

Lost manhood perfectly restored. Catarrh, Bronchitis, Throat Diseases, Skin Diseases, Rheumatism, Kidney Complaint, and all Diseases of the Eye and Ear, Stomach and Bladder, become curable without fail.

Consultation free, and a most thorough examination sent to those living at a distance who cannot consult him personally. Enclose postage stamp for reply.

Office—[illegible] Third St., opposite [illegible]. Office Hours—From 10 to 1, A. M. [illegible] 7 to 8 P. M. All letters of professional business must be addressed to DR. PAUL M. BRENAN & [illegible], Portland, Or.
